Mr. Richardson,

I want to thank you so much for once again coming to talk to our health classes at Parkview. As many times as I have heard your presentation, it still has such an impact. I know our students were really affected by the powerful way you presented the responsibilities, and sometimes unfortunate consequences, of teenage driving. Each case is so sad, but it really hits home with the students that these are real kids that have been killed, some of them they've even known.

Thank you for handing out your "It Won't Happen To Me" books to the students. It is my hope they will share these with their parents and inspire constant communication at home about the dangers of driving.

I would highly endorse your program and would be pleased to offer reference for any group or school seeking your services as a guest speaker. We are looking forward to having you back next year to talk to a fresh new group of soon-to-be-drivers.

Good luck on the first annual Remembrance Walk in October. Please let me know if I can be of any assistance leading up to the big event.

Sincerely,

Krista Stewart  
Health Teacher
