It Won't Happen to Me
Bill Richardson
2645 Youth Monroe Rd.
Monroe, GA 30655

Dear Mr. Richardson,

On behalf of the students and faculty at Walnut Grove High School, I would like to thank you for your powerful presentation of "It Won't Happen to Me". The evidence presented was both sobering and effective. Not only was I approached afterwards by students and faculty who attended the program about how remarkable it was, but also students in grade levels who did not attend wanting to know more about the program. I know that it really hit home for our students and parents.

I strongly believe that your presentation made a lasting impression on our students and generated some much needed dialogue about the importance of safe driving and good decision making. We had over 75 students sign "The Great Hang-Up" Pledge following your presentation.

Thank you again for serving the students of Walnut Grove High School and for your commitment to saving the lives of our youth. We look forward to having you again next year.

Sincerely,

Sarah Bennett
Walnut Grove High School
Counselor
